New Eco-Hopper for Efficient and Dust-Free Ship Unloading

We recently delivered an innovative Eco-Hopper, specially designed for the efficient and environmentally friendly unloading of ships carrying agri-bulk, biomass, petcoke, minerals, fertilizers, and phosphate rock.

Key Specifications:

Capacity: 750 tonnes per hour;

Mobility: Hydraulic drive with a travel speed of up to 0.5 km/h;

Energy Efficiency: Shore power connection with automatic cable reel;

Flexibility: Reversible conveyor belt (left/right) fully controlled from a joystick-operated cabin.

Unique Features:

Flip/flap system to minimize dust emission during unloading;

Four powerful air cannons that instantly clear blockages in the hopper by releasing a high-pressure burst of air;

Air Supply: Two Boge frequency-controlled screw compressors (11 kW each) provide the necessary compressed air.

This Eco-Hopper combines sustainability, safety, and maximum operational efficiency — a smart solution for modern bulk handling.

PEINER SMAG Lifting Technologies

Waste Solutions That Deliver

Unlock the full potential of your waste incineration facility with the PEINER Motor Orange Peel Grab (MMG/L) — a product born from decades of engineering excellence in waste management. Built to thrive in the toughest environments, the MMG/L ensures uninterrupted 24/7 operation, even under extreme loads. Its rugged, future-ready design makes it a smart investment for facilities aiming for maximum uptime and efficiency.

Engineered for Performance

Every detail of the MMG/L is crafted for high-throughput, low-effort operation:

- **Rapid cycle times:** Ultra-fast opening and closing for maximum material flow.
- **Seamless integration:** Fully controlled from the crane cab for smooth, intuitive operation.
- **Compact and powerful:** Optimized height and low center of gravity for stability and versatility.
- **Custom-fit shells:** Tailored to your project-specific needs for peak performance.

Built to Last

Constructed from high-grade steel and equipped with advanced mechanical components, the MMG/L is designed for longevity. Its innovative hydraulic system boosts reliability, while wear-resistant shell tips (HB 450 hardness) ensure durability in the most demanding conditions.

PEINER – Not Just Any Grab
